

Eco Expo Asia 2010 Exclusive Business Matching Application Form for Buyers

Thank you for confirming your visit to the **Eco Expo Asia, 3-6 November 2010**. To ensure you can get the most out of your time visiting the fair, we are pleased to offer you our professional business matching service **FREE OF CHARGE**.

Exhibitor list is enclosed for your easy reference. Please pick the company with code and fill in Part A below to guarantee a meeting timeslot with the selected exhibitor. Moreover, we will also recommend you a detailed programme of exhibitors you can meet with at the fairground according to your product interests and schedule indicated in Part B.

Kindly fill in this application form and return to us **by 15 October 2010**. If you have any queries, please contact Ms Sharon Chan at Tel: (852) 2240-4065, Fax: (852) 3521-3209 or email: ecoexpo.visitor@hktdc.org.

Our exhibitors will be expecting you with your products in search prepared. We look forward to welcoming you to our Fair in Hong Kong.

PART A Matching Request According to EXHIBITOR LIST

We would like to meet with

No	Code	Name of Company
1		
2		
3		
4		
5		

Please use additional sheet if space is not enough.

PART B Matching Request According to SPECIFIC PRODUCT INTEREST (May choose more than one)

Air Quality

- Air purification & deodorisation technology and equipment
- Gas, smoke & chemical monitoring and treatment equipment
- Desulphurisation & dust control technology and equipment

Energy Efficiency & Energy

- Energy saving devices and products
- Renewable & alternative energy products
- Alternative energy machinery and technology
- Energy efficient applications in architecture
- Eco-friendly vehicles

Waste Management & Recycling

- Solid waste recycling technology and equipment
- Solid waste treatment, incineration & recycling systems
- Transport, collection & sorting of waste
- Biological treatment equipment
- Oil recycling technology and equipment

Eco-friendly Product

- Biodegradable & eco-friendly raw materials
- Biodegradable & recycled products and packaging
- Eco-friendly materials for construction and fitting
- Green decorative materials

Environmental Project Solution & Service

- Eco-friendly landscape designs
- Environmental project equipment and services

Water Quality

- Water desalination & purification technology and equipment
- Sewage systems and treatment

Control, Measuring and Laboratory Technology

- Sound & noise control products and services
- Laboratory equipment & supplies

Others

(Please name the specific product you are seeking if it is not listed above): _____

PART C Preferred Meeting Schedule (Please choose at least 2 sessions)

	3 Nov 2010 (Wed)	4 Nov 2010 (Thu)	5 Nov 2010 (Fri)
AM		<input type="checkbox"/>	<input type="checkbox"/>
PM	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

PART D Company Information

Company Name _____

Address _____

Country _____

Contact Person _____ Title _____

Tel _____ Fax _____

Email _____

Website _____

Contact number from 3 – 6 November 2010 _____

Speaking language(s)

- Cantonese English Mandarin
 Others, please specify _____

Nature of business (can choose more than one)

- | | | |
|--|---|---|
| <input type="checkbox"/> Importer | <input type="checkbox"/> Wholesaler | <input type="checkbox"/> Retailer |
| <input type="checkbox"/> Distributor | <input type="checkbox"/> Exporter | <input type="checkbox"/> Manufacturer |
| <input type="checkbox"/> Buying Office | <input type="checkbox"/> Agent | <input type="checkbox"/> Chain / Department Store |
| <input type="checkbox"/> Service Company | <input type="checkbox"/> Consulting Company | <input type="checkbox"/> Government |
| <input type="checkbox"/> Trade Association & NGO | <input type="checkbox"/> Others, please specify _____ | |

Business Area (can choose more than one)

- Architect, Building, Design, Survey and Contractor
 Banking, Finance, Accounting and Insurance
 Catering, Beverage, Restaurant and Hotel
 Environmental protection
 Government Department
 Hospital and Clinic
 Printing and Publication
 Property Development
 Property Management
 School/Institute
 Trade Association & NGO
 Transportation and Logistics
 Others, please specify _____

Should you have any queries, please do not hesitate to contact Ms Sharon Chan

Eco Expo Asia 2010 - Exhibitor list for business matching (as of 7 October 2010)

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA001	Eco-Wiz Group Pte Ltd	Singapore	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Management School/Institute	ECO-WIZ Wet System ECO-WIZ Dry System	ECO-WIZ Wet and Dry System are able to decompose food waste into a nutrient-rich liquid and a soil-like substance respectively. One is suitable for disposal at public sewers, while the latter can be applied to gardens as compost.
BM-EEA002	O.R.V. Asia Pacific	Taiwan	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Management School/Institute Transportation and Logistics	Heater, Heater Technology	We produce heating systems including membrane, heating electrical devices and transformer for agriculture, buildings...etc, both for indoor and outdoor usage. Our product is a patented versatile product suitable for all kind of applications powered by a very low voltage to get warm and generate heat.
BM-EEA003	Green Touch Design	USA	Architect, Building, Design, Survey and Contractor Government Department Property Development Hospital and Clinic	Sustainable Master Planning, Green Architectural Design and Consultancy as well as Sustainable Development Frameworks for large and small community project developments	Green Touch has developed programmatic metric software that describes construction projects from an impacts standpoint offering an approach to design and building that reduces costs and minimizes risk while attracting public support and stakeholder buy-in.
BM-EEA004	Topanga Technologies	USA	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Government Department Hospital and Clinic Property Development Property Management School/Institute Transportation and Logistics	High-performance, energy-efficient Plasma Light Engines as a direct replacement for HID, Induction and LED sources commonly found in general and commercial lighting	Topanga Technologies has developed a revolutionary Advanced Plasma Light Engine™ providing unparalleled performance with a global market appeal targeting the commercial and industrial lighting markets. The APL combines solid-state technology with an electrode-free quartz lamp to produce high lumen per watt energy efficient sources with excellent color quality, high brightness and durability

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA005	SSI Shredding Systems Inc	USA	Environmental Protection Government Department Hospital and Clinic School/Institute	Rotary shear shredders, primary shredders, single shaft shredder, compactors	Effective size reduction solutions through the custom manufacturing of shredders for hazardous waste tires, metal, paper, e-scrap and plastics as well as medical waste, product/security destruction and construction and demolition (C&D) shredders.
BM-EEA006	Dimensional Insight	USA	Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental Protection Government Department Hospital and Clinic	Business Intelligence software and professional services	Since 1989, Dimensional Insight specializes in development and marketing multidimensional, data visualization, analysis and reporting software. Our products enable decision makers across all areas of a organization to access and analyze data quickly and intuitively and identify new opportunities, improve their business operations and increase their profits.
BM-EEA007	GreenGran BN (HK) Ltd	The Netherlands	Environmental Protection	GreenGran Natural Fibre Reinforced Polymer for injection molding Bio-degradable Plastics - PHB & Compounds	GranGran BN (HK) Ltd has been ardently advocating a new technology that replaces glass fibres with natural materials. We use bio-based raw materials to produce bio-degradable plastics which are able to decompose naturally in the environment. This new innovative material can be foamed to make disposable lunch boxes which are readily degradable in land-fills.
BM-EEA008	ChemCo Systems	USA	Architect, Building, Design, Survey and Contractor Government Department	Epoxy and polyurea products for concrete repair, maintenance and protection. All products are 0 VOC's.	ChemCo Systems manufactures high performance epoxy and polyurea based adhesive, coating, grout, primer and control joint filler products for concrete repair, restoration and protection. Products are designed for use by specialty contractors for structural concrete bonding, patching, crack repair...etc. They offer solutions for extreme environments including underwater, corrosive and extreme temperatures.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA009	ALSA Tech, LLC	USA	Catering, Beverage, Restaurant and Hotel Environmental Protection Government Department	Products: SMARTMIST TM pre cooling system Service: Water treatment and water infrastructure research and consultancy	SMARTMIST™, a leader in the mist cooling industry in the U.S. Its latest new product - SMARTMIST TM AC/Refrigeration Pre-Cooling system, is an energy saving device that can be installed in front of an air-cooled condenser to boost the operating efficiency and reduce the electricity consumption by up to 30%. SMARTMIST TM pre-cooling takes full advantage of the cooling power of mist with very little cost or energy use.
BM-EEA010	Shanghai Sto Ltd Shenzhen Branch	Germany	Architect, Building, Design, Survey and Contractor Environmental Protection Government Department Property Development	Water based coatings, external insulation systems, silent panel & modular glass fiber wall paper, interior decorative system	1) StoSilent Acoustic Ceiling: StoSilent panels and sound permeable coating, combine sound-absorption ceiling with decorative ceiling perfectly. So far, Sto acoustic system represents the latest developments in world, 2) StoThermo Classic: StoTherm Classic is recognized as the most successful facade insulation system worldwide: very high crack resistance, highly resistant to mechanical stress, effective thermal insulation and weather-resistant. 3) Sto Thermo Color: Thermal Insulation, Dirt resistance and Energy saving
BM-EEA011	Green Battery Technology Corp.	Taiwan	Environmental Protection Government Department Transportation and Logistics	12V Starting Battery for car 24V Starting Battery for bus and trucks Power Battery Module for Electric Vehicle	All the products are green, long lifespan, light weight and compact. Battery for cars are 8% fuel economy and battery for bus and trucks are 5% fuel economy
BM-EEA012	Wahlco, Inc	USA	Architect, Building, Design, Survey and Contractor Environmental protection Government Department Power Plant, Utility company, Industrial Facility	Design, engineering and manufacturing of air pollution control systems and equipment: Environmental systems include: Ammonia systems, Nox reduction systems, flue gas conditioning, U2A systems, heaters and thermocouples, process equipment skids	Anhydrous or aqueous, ammonia, urea to ammonia (U2A), unload, storage, forwarding vaporizing, dilution air/AFCU and AIC for SNCR and SCR application. FGC equipment for the improvement of ESP's.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA013	Baumgartens	USA	Architect, Building, Design, Survey and Contractor Government Department Hospital and Clinic Property Development Property Management School/Institute	Conserve Planet-Friendly Cleaners	Conserve Brand cleaning products dissolve completely in minutes with tap water and are ideal for use in fitness centers, schools, colleges, private households...etc. Simply drop one of the tablets in to the provided 32oz bottle, add water and in minutes you have a powerful, effective odor fighting solution. Our tablets ship without the water, saving you big bucks on shipping costs, plus there is no liquid to spill, leak or mop up later.
BM-EEA014	West Salem Machinery Co	USA	Government Department Renewable Energy, Biomass & Biofuel facility	Biomass fuel preparation machinery and systems including grinders, shredders, hammer mills, screens & feeders.	WSM's complete line of grinding, screening, milling and conveying equipment is the core of each fully engineered package and provides the best value for converting a wide range of feedstock materials into premium quality fiber/fuel products. Recent projects include processing rubber wood stumps at a wood energy plant in Thailand and processing urban wood waste at an energy plant in Singapore.
BM-EEA015	Charankattu Coir Mfg Co (P) Ltd	India	Architect, Building, Design, Survey and Contractor Environmental Protection Property Development	Coco Peat for hydroponic cultivation & horticulture	100% nature and bio-degradable coconut fibre nettings and stitched blankets for soil erosion control. 100% natural and bio degradable coco peat for horticultural applications and nursery.
BM-EEA016	Oswego Design & Remodeling, inc	USA	Architect, Building, Design, Survey and Contractor Property Development Trade Association	Residential & Commercial design service, Huntwood Custom Cabinets	National Award Winning Designer specializing in residential space planning and design. Using green & sustainable products & methods. Award winning kitchen & bathroom designs. Also representing several green-sustainable products related to residential construction and manufactured in the U.S.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA017	Green Technology Solutions	USA	Architect, Building, Design, Survey and Contractor Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Printing and Publication Property Development Property Management School/Institute Trade Association & NGO Transportation and Logistics	Engines, switchblade and electric cars, carbon emissions reduction products and services for building communities for ROI in one year.	We will be exhibiting 4 major products and promoting our green resolution for lowering carbon emissions. Our engine will be presented at the show as will our new flying car the switchblade and our carbon reduction monitoring systems with an ROI in one year.
BM-EEA018	Miele (Hong Kong) Ltd	Germany	Architect, Building, Design, Survey and Contractor Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental protection Hospital and Clinic	Household appliances	Miele appliances are not only characterized by their durability, constant innovations and unique design; they are also very user-friendly, have high energy efficiency and are very good in terms of their capacity to be recycled. Miele will be showcasing its Eco-Comfort range including washing machine, tumble dryer, dishwasher and vacuum cleaner. Miele's Eco-Comfort range has programs to enable consumers to directly influence their level of consumption.
BM-EEA019	Sempergreen	The Netherlands	Architect, Building, Design, Survey and Contractor Environmental Protection Government Department Property Development Roofing companies and landscapers	Sempergreen vegetation blankets for green roofs	Sempergreen pre-grown vegetation blankets can be applied to nearly every roof, no matter sloped or flat. The purchase, installation and maintenance costs clearly offer the best value of any green roof system. With Sempergreen roof, the underlying roof is protected from UV and extreme heat fluctuations.
BM-EEA020	Eco360	USA	Architect, Building, Design, Survey and Contractor Environmental Protection Government Department Property Development Property Management Agriculture and Aquaculture, landscape architects	Water remediation system using the Coherent Water Resonator (CWR)	Eco360 will introduce the coherent Water Resonator (CWR), a water remediation system that stimulates microbial activity to clean up toxic chemicals, nitrates, phosphates, organic debris and sludge in natural bodies of water. The CWR uses resonance technology to increase dissolved oxygen in water to enhance microbial activity.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA021	EESS	USA	Environmental Protection Government Department Transportation and Logistics Ship owners	Laser analyzer and monitor to ensure combustion gas in smokestacks meets emission regulations and provides feed back to engine emission systems	Emsys - The first near real time laser analyzer of smoke gas makes engine management system both smart in fuel savings and green in emission controls.
BM-EEA022	Arquitectonica	USA	Government Department Hospital and Clinic Property Development Property Management School/Institute	Architectural design services, master plan design services, landscape design services, services for sustainable design in architecture	Arquitectonica is a full-service architecture, interior, landscape and master planning design firm that began in the USD 32 years ago. With projects in 35 countries, today Arquitectonica has a practice across the world directed from offices in Miami, New York, Los Angeles, Paris, Madrid, Dubai, Hong Kong, Shanghai...etc.
BM-EEA023	IVT GmbH & Co KG	Germany	Architect, Building, Design, Survey and Contractor Environmental Protection Government Department	Latento - Multifunctional solar energy system Prineto - Piping system for sanitation, heating and surface heating and cooling	
BM-EEA024	Capstone Turbine Corporation	USA	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic School/Institute	Gas-fired microturbines for distributed generation projects under 5 megawatts.	Capstone's microturbines have only one moving part, operate on air bearings, and are very low maintenance. The units produce both electricity and thermal energy for customers at buildings, factories, landfills, wastewater plants and others.
BM-EEA025	Mirjahangir Engineering	USA	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute Trade Association & NGO	Turnkey engineering solutions with key strategic partners for industrial and commercial projects.	We utilize wind energy, solar energy, combined cycle gas turbines for green energy generation. We are able to provide modular waste to energy plants technology for municipalities with long term operational management contract.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA026	Fox Thermal Instruments	USA	Environmental Protection Industrial plants, waste water treatment plant	Gas flow meter	Fox Thermal Mass Flow Meters have become the preferred device to analyze demand, improve operating efficiency, reduce waste and adjust for peak usage. Fox Thermal's accurate Mass Flow Meters will help reduce your maintenance costs while making your facility compliant to environment regulations.
BM-EEA027	Apex Drive Laboratories, Inc	USA	Government Departments Transportation and Logistics	Apex Drive Laboratories, permanent magnet axial flux motor/generator for applications from wind turbines to electric cars	The Apex patented DDS2, permanent magnet axial flux motor/generator provides the highest torque in the most compact package in the market today. The DDS2 displays the technology used for a scalable product that can be used in wind turbines, electric vehicles, pumps, and any other application requiring a highly efficient with the advantage of the 1/3 the size and less than 20% of the weight of conventional motors.
BM-EEA028	Porteon Electric Vehicles Inc	USA	Government Departments Property Development School/Institute Transportation and Logistics	JV opportunities to manufacture and market products	Low speed/mid-speed electric vehicles for people and goods movement where we live work and play
BM-EEA029	Honeywell International Inc	USA	Architect, Building, Design, Survey and Contractor Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute Transportation and Logistics	Energy Retrofits, energy performance contracting, smart metering service, energy management systems, demand response	Honeywell's energy solutions have delivered over \$5 billion of savings over the past two decades. Our diversified business enables us to broadly address the challenges in the energy systems, covering technologies such as green buildings, smart grid / demand response, advanced control & optimization, energy management system (EMS), biofuels, and others.
BM-EEA030	Royal Service Air Conditioning Group	USA	Architect, Building, Design, Survey and Contractor Property Development Property Management	RSVAV, variable air volume terminals	RSVAV controls air flow and reduces air conditioning energy acuthcrerm control air flow without electrical power, steril aire prevents dirt and mold that increases energy use in air conditioning systems.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA031	Kang Yue, USA LLC	USA	Catering, Beverage, Restaurant and Hotel Environmental protection Hospital and Clinic Property Development	Investor, distributors, channel partnership	- Phyto remediation wastewater treatment process: European developed technology treats black and grey water in a space not much larger than a refrigerator. - Family of purified oxygen aeration technologies for enhanced aerobic wastewater treatment, reservoir aeration and hybrid bio-reactor for high COD/BOD applications.
BM-EEA032	Greenware Ltd	France	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute Transportation and Logistics	Energy Server for air-conditioner, 3G surveillance and data logger, RF data transmissin & solution	Greenware Ltd addresses core challenges in the industrial and B2B markets by providing the next generation of end to end wireless solutions for intelligent green monitoring and control. Green Technologies® adds sustained value to end customers in a broad range of applications: utilities, energy efficiency, water/waste management, green infrastructure and buildings
BM-EEA033	Backhus GmbH	Germany	Environmental protection Government Department	Turning solutions for composting, sewage sludge composting, bio-mechanical stabilisation of refuse for landfills, biological drying of waste materials, reprocessing of fermentation products from biogas reactors, bioremediation: mobile turners for triangular and trapezoidal windrows; fully automatic BACKHUS lane turner for waste management in enclosed facilities	Turning solutions for composting, sewage sludge composting, bio-mechanical stabilisation of refuse for landfills, biological drying of waste materials, reprocessing of fermentation products from biogas reactors, bioremediation: mobile turners for triangular and trapezoidal windrows; fully automatic BACKHUS lane turner for waste management in enclosed facilities
BM-EEA034	3Tech Corporate Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Government Department Property Development Property Management School/Institute Telecom	Small scale power systems including solar PV, solar hot water panels, solar lighting, small wind turbines diesel generators, hybrid diesel/ solar/ wind turbine systems. Renewable consultancy, electrical and mechanical systems.	Solar technologies such as crystalline and amorphous thin falin panels, building integrated PV glass panels, solar lighting.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA035	Advanced Eco Engineering Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Printing and Publication Property Development Property Management School/Institute Trade Association & NGO Transportation and Logistics	iDear Bio-food Waste Decomposer, iDear Eco-egg Ozone Mini Washing Machine, iDear Aqua-washer	iDear Bio-food Waste Decomposer decompose food waste with 24 hours with 95% weight reduction. It equips with unique disinfection & sterilization system together with unique lonmetal oxidate catalytic decolorization devise. The operation is fully automatic & user friendly. Dear Eco-egg Ozone Mini Washing Machine with built in ozone generator which provide strong disinfection & sterilization system. It is most suitable for washing cloths for pregnancy & baby. Its unique design reduces electricity & water consumption.
BM-EEA036	Beam & Company Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Environmental protection Government Department Property Management School/Institute	Solar street light, solar wind hybrid light and power system, solar mobile power kit, solar panels, solar power plant, solar gadgate, solar road stud.	Solar electronic controller with a range of functions. Solar portable power supply with light weight for versatile purpose. We can also do ODM service if clients can provide idea, requirement of products to develop.
BM-EEA037	Biozone Scientific International Limited	Hong Kong	Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute Transportation and Logistics		
BM-EEA038	C&G Environmental Technology Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Printing and Publication Property Development Property Management School/Institute	Electrum, Microfloat, Microspear, Oil separator, special chemicals, wastewater recycling technology and equipment, wastewater treatment system, cleaner production partnership programme consultancy service	Microfloat is newly developed products, which employs the well reorganized 254MM UV disingection mechanism and it is a chemical free method to achieve 99.99% disuigection. Electrum is intended for the electric-chemical recovery of metal retained in solutions.
BM-EEA039	Catalyst (HK) Environmental Technology Limited	Hong Kong	Environmental protection	Mufflers & Catalytic Converter	

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA040	Dunwell Environmental Management Company Limited	Hong Kong	Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Property Development Property Management School/Institute	Used lubricants treatment & reuse equipment. Water treatment and reuse equipment	
BM-EEA041	Dynasty Vitality Limited	Hong Kong	Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Super Market Chain Supplier	1, 100% bio-degradable shopping bag/garbage bag, 2, 100% bio-degradable food trays/containers/ tableware/ restaurant supplies/ cup lids, 3, 100% bio-degradable garden plants trays/ farming/ forest film, 4, 100% bio-degradable medical supplies packaging, 5, 100% bio-degradable stationary/ office supplies products	
BM-EEA042	EXT Machine Tools Company Limited	Hong Kong	Catering, Beverage, Restaurant and Hotel Environmental protection Hospital and Clinic School/Institute	Reven - Air Cleaning Systems, Oil Mist Separators Systems	Based on 105 years' experience in the domain of mechanical separation in ventilation technology, the Oil Separator developed by REVEN is particularly well suited for the separation of the following harmful substances from the air: Aerosols, Mist, Vapour, Fine dust, which can not only ensure the process precision, but also bring some fresh air to help you keep healthy.
BM-EEA043	Ecosmart Energy Management Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Printing and Publication Property Development Property Management School/Institute Trade Association & NGO Transportation and Logistics	Solar PV system, Solar PV panel, Wind system, LED light, Heat reducing coating, Automation System, Solar water heater, Energy Audit, Greening roof, Solar LED Utility, Solar Controller & Inverter.	Our solar PV System are convertient and comprehensive. Our phtopoltaic (PV) power, equipment packages are design specifically for residential and small commercial applications.
BM-EEA044	Forleda Industrial Company Limited	Hong Kong	Banking, Finance, Accounting and Insurance Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Trade Association & NGO	GPEET Recycled Bags	Our GPET recycled bags are made from post consumer plastic bottles which helps to recycle wastage and protects the environment. Our GPET recycled bags is the only bag certified with the Hong Kong Green Label Scheme which is proven to be totally environment friendly

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA045	Fu Lee (Asia) Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Property Development Trade Association & NGO		Pramac solar - luce micromorph® mcph P7 modules are manufactured using silicon thin film double junction technology. This process combines an amorphous silicon top layer over a microcrystalline silicon layer. The top cell absorbs and converts the visible solar spectrum, while the bottom one is sensitive to near ir wavelengths. This is the reason why micromorph® panels are even more efficient. Moreover, thanks to the frameless design, they are perfectly suitable for architectural integrations.
BM-EEA046	Fukutomi Co Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Property Development Trade Association & NGO		
BM-EEA047	Fullyace Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute	Biotec-composting machine	The composting machine is used for handling food waste and converted them into compost.
BM-EEA048	Guangdong Shangjiu Biodegradable Plastics Co., Ltd.	Chinese mainland	Environmental protection Government Department Hospital and Clinic		
BM-EEA049	Hinomaru Sangyo (HK) Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Government Department Hospital and Clinic Property Development Property Management School/Institute	Activated Charcoal paint, Activated Charcoal mix for soil improvement, Household Charcoal Products	Our charcoal (Active Carbon) is a form of micro porous form of carbon. We manufactured charcoal products like charcoal paint; charcoal mix for soil improvement or concrete; and other retail products using different kind of woods and bamboo. All these products have properties like absorbing harmful impurities, balancing humidity and emitting electro-magnetic waves that are healthier to human. With different charcoal's applications, our mission is to improve our living environment.

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA050	Hinrich International Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Environmental protection	Gas filter, Eco friendly primers, acoustic coating	Hinrich distributes a full range of corrosion and fire protection coatings produced by Jotun in Norway and China.
BM-EEA051	Hong Kong Solar Energy Company Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management		
BM-EEA052	J-Style Creations Company Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development School/Institute Transportation and Logistics	Pacific Beam Mold, Mold and environment inspection and cleaning service	We provide total solutions for microbial contamination in indoor environments. Our patented anti-mold coating method ensures long-lasting mold prevention effect by selecting most effective mold prevention agents based on microbiological analysis. One of our most recommended, proprietary product is called PacificBeam MOLD. This product can have antibacterial/ bacterial removal effects on over 400 types bacteria and mold. The product can achieve hygiene control, infection control, deodorization/ odor prevention for hospitals, offices, residences and car interiors.
BM-EEA053	Jepsen & Co Ltd	Hong Kong	Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute Trade Association & NGO	Solar PV Panel System, Wind Turbine System, Hybrid Type Solar Collector Panels, Flat Plate Solar Panels, Solar Water Collectors System	Solar PV Panels, Solar Water Collectors and Heaters and Vertical Axis Wind Turbines
BM-EEA054	KCK Energy Conservation System Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Government Department Property Development Property Management School/Institute	LED Panel, Energy Saving Tube	

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA055	Kinetics International Limited	Hong Kong		Metal Framing Support Solution, OEM Metal Building Products, Cable Containment System	Kinetics provide DRSTRUT ECO-friendly engineering support solution. Our DRSTRUT system designed for saving raw material, man power, pollution and especially less wastage. We can provide full engineering solution, material supply and consulting. And our ECOTRAY cable Tray System is a new idea for ECO-Friendly cable support.
BM-EEA056	Kolar Husky Company Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute	Gas heat pump, Plated heat exchange, Economizer, Gas genset, Energy saving solution	
BM-EEA057	Lemax Environmental Protection Decorative Building Materials Co., Ltd.	Chinese mainland	Architect, Building, Design, Survey and Contractor	Decking boards and wood-plastic composite wall panels	Our products are manufactured from a combination of 60% wood fiber, 34% polypropylene (PP), and some 6% additives by using special extruding equipments. They are anti-UV, waterproof, weather proof, mathproof, moldproof, and eco-friendly. They can stand +75C high temperature.
BM-EEA058	Man Po Environment Technologies Co Ltd	Hong Kong	Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Hospital and Clinic Printing and Publication Property Development Property Management School/Institute	Air purification machine	In duct inserted type air purifier is generally installed to duct in ventilation system to improve air quality in served area. This is most effective and economic types with easy installation method and low maintenance cost because it purify air in building. The unit can removes bacteria, odor, mold, volatile organic compounds (VOC).
BM-EEA059	Mitsubishi Chemical Hong Kong Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Catering, Beverage, Restaurant and Hotel Environmental protection Government Department Property Management School/Institute Trade Association & NGO	Biodegradable plastics, Flexible solar panel (BIPV), highly reflective luminaries, VOC measurement services/ devices, plant factory system	Mitsubishi Chemical Corporation is devoted to develop sustainable and environmentally friendly products and materials. We aim to develop the following 7 areas in the coming future: Biodegradable plastic, White LEDs, OLEDs, OPV, Li-ion battery for HEV, HEV components and Target drugs. We infuse the world's leading chemical technology into daily life and implement our concept "Good Chemistry for Tomorrow".

Code	Company Name	Country	Interested to meet with	Products / Services offer	Product / Technology Description
BM-EEA060	New Green Environmental Sciences Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Government Department Landscape Contractor	Soil Conditionor, Fertilizer	Organic Soil Conditioner-made from horse manure and straw or palm fibre. Fertilizer - both organic fertilizer & chemical fertilizer combined with organic & natural materials.
BM-EEA061	Nga Luen Construction & Engineering Company Limited	Hong Kong	Architect, Building, Design, Survey and Contractor Environmental protection Property Management School/Institute Trade Association & NGO	Envircoat heat resisting & waterproofing coating system	PCZOO is a multi-purpose thermal-resisting and waterproofing coating, its environmental protective specialty with low VOC content makes it an outstanding product in thermal-shield and waterproofing applications.
BM-EEA062	One Click Technologies (HK) Ltd	Hong Kong	Architect, Building, Design, Survey and Contractor Banking, Finance, Accounting and Insurance Environmental protection Government Department Property Development Property Management School/Institute Trade Association & NGO Transportation and Logistics	Energy saving technology co-operation, transfer copyright using embed format	Intelligent power management using embed format on vary consumer products, furniture with sinant power design at offices and home.
BM-EEA063	Pacific Paint (BOYSEN) Philippines Inc.	Hong Kong	Architect, Building, Design, Survey and Contractor Environmental protection Government Department Hospital and Clinic Property Development Property Management School/Institute Trade Association & NGO Transportation and Logistics	ECO-ACTIVE PAINTS	Boysen KNOxOUT is the first air cleaning paint in the world with CristaActiv photocatalytic technology. It uses light energy to break down noxious air pollutants and convert them into harmless substance. Any surfaces coated with KNOxOUT becomes an active air purifying surface that helps protect people from harmful gases. Photocatalysis also provide KNOxOUT with self-cleaning, anti-bacterial and de-odorizing properties.

BM-EEA064	Powertech IPC Company Limited	Hong Kong		Energy saving solution and water quality improvement solution	In a cooling tower system, condensing water is usually treated by chemicals. However chemicals are either underdosed or overdosed because their idual concentration or water quality is not monitored in real time. AquaKLEAR effectively solve the mineral scale problem by inducing an electric field into the water so that the crystallization process starts in the water instead of the heat exchanging surface. Moreover the electric field kills bacteria when they pass through it. The installation of AquaKLEAR does not disturb the normal operation of the system. It is maintenance free and consumes no more than 65W. There are over three hundred installations in Hong Kong and the biggest unit applied to a central chiller plant with 800mm condensing water header pipe. For centrifugal chillers, lubrication oil leaks to the refrigerant. According to a study supported by ASHRAE, a 3% of oil contamination in refrigerant causes 8% loss of energy efficiency of a chiller. OAM Purger purifies refrigerant of a chiller so as to restore the energy efficiency. Acid and moisture are also removed if there is any. There is no modification to the chiller and only three connections from the OAM Purger to the chiller via existing valves are required.
BM-EEA065	Rainbow Xuzhou Plasma Environmental Tech Co., Ltd	Chinese mainland	Architect, Building, Design, Survey and Contractor Environmental protection Government Department Hospital and Clinic	PCBs treatment system, Medical wastes treatment system, Hazardous wastes treatment system	RAINBOWTECH specialize in research, design and manufacture of the Plasma Arc Melting Cracking Device, the system is processing hazardous, PC Board, industrial and medical wastes etc, collected the commercially valuable, renewable resource, Rainbowtech system is computer controlled, easy to use and operates in safely condition with friendly environmental.
BM-EEA066	Royal Service Air Conditioning Group	USA	Architect, Building, Design, Survey and Contractor Property Development Property Management	RSVAV, Variable air volume terminals	RSVAV acutherm and steril-aire side products. RSVAV controls air flow and reduces air conditioning enegy acuthcrerm control air flow without electrical power, steril aire previents dirt and mold that increases energy use in air conditioning systems.
